# Leon Munene

Full-stack Developer

## CONTACT

**Phone**: +254759604380

**Email**: leonmunene254@gmail.com

**Location**: Nairobi, Kenya

**Portfolio**: https://leonmunene.netlify.app/

## ABOUT ME

- Passionate software developer skilled in Python, React, Flask, and Rust, building scalable, user-friendly solutions. With strong problem-solving skills, I deliver clean, optimized code for robust applications. I also mentor peers as a Microsoft Student Ambassador and Tech Lead. Constantly learning, I thrive in dynamic environments. Let's collaborate to bring ideas to life!

## PROFESSIONAL EXPERIENCE

**Software Intern | 2024 (Jul – Nov )**

Alofa

- Contributed to application development by coding, debugging, and testing features to ensure functionality and user satisfaction while actively learning modern tools, frameworks, and best practices to enhance technical proficiency.

**Freelance | 2023 – Present**

Self-Employed

- Designed and developed responsive, user-friendly web applications, including portfolio websites and business sites for individual clients.
- Improved client satisfaction by delivering projects on time and incorporating feedback to ensure high-quality results.
- Enhanced problem-solving skills and technical expertise by tackling real-world challenges in diverse projects.

## EDUCATION

**KCA University | 2022–2026**

Bachelor of Science in Applied Computing (Specializing in Information Security)

- Currently in my third year of study, focusing on software development, systems design and management and other applied computing principles; while improving teamwork and leadership skills through projects, assignments and leadership roles

**ALX SE Program | 2023 – 2024**

Software Engineering Program (Backend Specialization)

- Intensive 12-month program focused on backend development, Python, and scalable system design.
- Built real-world projects and honed problem-solving and collaboration skills.

## CERTIFICATES

**Software Engineering | 2024**

ALXSE Program

**Frontend Developer (React) and Python (Basic)**

HackerRank

## LEADERSHIP & COMMUNITY INVOLVEMENT

- Microsoft Student Ambassador: I mentor peers and conduct workshops on Python, React, and modern development tools to foster technical growth and collaboration.
- KCAU Tech Club Front-End Lead: I lead front-end development initiatives and train members on React and other front-end technologies.
